To be executed on Non-Judicial Stamp Paper of Rs. 100/- (Indian)
(or as prescribed by the State; place stamp paper behind this page when filing)

ANNEXURE D — AFFIDAVIT

In support of Application for Registration of Copyright
under Section 45 of the Copyright Act, 1957 read with Rule 70 of the Copyright Rules, 2013

I, *[AUTHOR FULL NAME]*, son/daughter of *[FATHER'S NAME]*, aged *[AGE]* years, residing at *[RESIDENTIAL ADDRESS]*, do hereby solemnly affirm and declare as under:

1. That I am the author / co-author of the original computer software titled **"Campus Verse — Multi-Tenant ERP Platform for Educational Institutions"** ("the Work"), in respect of which a copyright application has been filed in Form XIV before the Registrar of Copyrights, Government of India, New Delhi.

2. That the printed source-code extract enclosed with the said application — being the **first ten (10) pages** and the **last ten (10) pages** of the Work, paginated at fifty-five (55) lines per A4 page, totalling twenty (20) pages, each signed by me — constitutes a representative specimen of the Work and is drawn from the larger, complete source code referenced below.

3. That the **complete source code** of the Work, comprising **1005 source files** and approximately **3,17,159 lines** of code (totalling **5,785 A4 pages** at 55 lines per page), is enclosed herewith on sealed media (USB drive / DVD-R) as **Annexure C**, in a single ZIP archive named `campus-verse-full-source.zip` of approximately **6.2 megabytes**.

4. That the SHA-256 cryptographic hash of the said ZIP archive, computed at the time of sealing, is:

   ```
   8efcc3744e6692de20e3e06150a86aa93e0e51b7d45406449df28b1a1e52706d
   ```

   The said hash is also printed on the physical seal of the media and on the cover of the printed source-code extract for cross-reference.

5. That the said sealed media has been signed across the seal by me. Any tampering with the seal or any alteration of the archive shall be detectable by re-computing the SHA-256 hash

and comparing it with the hash recorded in paragraph 4 hereinabove. No alteration to the archive is possible without producing a different hash.

6. That the complete source code on the said media is original to me, has been independently authored, and is not a copy or substantial reproduction of any third-party work. The Work makes use of widely-available open-source libraries and frameworks (each used under its respective permissive licence — MIT, Apache 2.0 and similar) as tools to express the Work, but no third-party code is reproduced as part of, nor claimed as, the Work being registered.

7. That I have read the contents of the present Affidavit and understood the same. The contents hereof are true to my own knowledge, no part of it is false, and nothing material has been concealed therefrom.

Solemnly affirmed at *[PLACE]* on this *[DAY]* day of *[MONTH]*, 20*[YY]*.
