FORM XIV

[See rule 70]

APPLICATION FOR REGISTRATION OF COPYRIGHT
To,
The Registrar of Copyrights,
Copyright Office,
Government of India, New Delhi

In accordance with Section 45 of the Copyright Act, 1957 (14 of 1957), I hereby apply for registration of copyright and request that entries may be made in the Register of Copyrights as in the enclosed Statement of Particulars sent herewith in triplicate.

I also send herewith the Statement of Further Particulars relating to the work. (For literary, dramatic, musical and artistic works only.)

In accordance with Rule 70 of the Copyright Rules, 2013, I have sent by prepaid registered post copies of this application to other parties concerned, as detailed below: (NIL — no other parties.)

The prescribed fee has been paid as per challan/online receipt enclosed.

1. Statement of Particulars

1. Name, address and nationality of the applicant	*[COMPANY FULL LEGAL NAME]* *[Registered office address, Line 1]* *[Line 2, City — PIN]* *Nationality: Indian* *CIN: [_____]*
2. Nature of the applicant's interest in the copyright of the work	Owner — by virtue of the work having been created by the author(s) in the course of their employment / engagement with the applicant under a contract of service, the copyright vests in the applicant under Section 17(c) of the Copyright Act, 1957.
3. Class and description of the work	Class: **Literary Work (Computer Software)** Description: Source code, object code and associated documentation of a multi-tenant, cloud-based Enterprise Resource Planning (ERP) software platform for educational institutions, comprising backend REST APIs, three web applications and two cross-platform mobile applications.
4. Title of the work	**Campus Verse — Multi-Tenant ERP Platform for Educational Institutions**

5. Language of the work	English (literal text) — Source code primarily written in **TypeScript** and **JavaScript**, with HTML & CSS for the web frontends and YAML / JSON for configuration. All identifiers, comments and documentation are in English.
6. Name, address and nationality of the author and if the author is deceased, date of his death	*Name: [AUTHOR FULL NAME]* *Father's Name: [_____]* *Age: [____] years* *Address: [_____]* *Nationality: Indian* *(Living)*
7. Whether the work is published or unpublished	*[Choose one: PUBLISHED / UNPUBLISHED]* *If published, complete item 8; if unpublished, mark "Not Applicable" for item 8.*
8. Year and country of first publication and name, address and nationality of the publisher	*Year of first publication: [YYYY]* *Country of first publication: India* *Medium: Deployed at **campusverse.app** (web), and as mobile applications on Apple App Store and Google Play Store (proposed).* *Publisher: Same as applicant — [COMPANY NAME], [address]* *Nationality of publisher: Indian*
9. Years and countries of subsequent publications, if any, and names, addresses and nationalities of the subsequent publishers	Not Applicable.
10. Names, addresses and nationalities of the owners of various rights comprising the copyright in the work and the extent of rights held by each, together with particulars of assignments and licences, if any	*All rights in the work are owned exclusively by the applicant — [COMPANY FULL LEGAL NAME], [address], Indian nationality. No assignments or licences have been granted as on the date of this application.*
11. Names, addresses and nationalities of other persons, if any, authorised to assign or licence the rights comprising the copyright	None.

12. If the work is an "Artistic work", the location of the original work, including name, address and nationality of the person in possession of it. (In the case of an architectural work, the year of completion of the work should also be shown.)	Not Applicable — the work is a Literary Work (Computer Software).
13. If the work is an "Artistic work" which is used or is capable of being used in relation to any goods, the application should include a certificate from the Registrar of Trade Marks in terms of the proviso to Sub-section (i) of Section 45 of the Copyright Act, 1957	Not Applicable — the work is a Literary Work (Computer Software).
14. If the work is an "Artistic work" capable of being registered as a design under the Designs Act, 2000 (16 of 2000)	Not Applicable.
15. If the work is an "Artistic work", whether it has been registered under the Designs Act, 2000 (16 of 2000). If yes, give details	Not Applicable.
16. If the work is an "Artistic work", and capable of being registered as a design under the Designs Act, 2000, whether it has been applied to an article through an industrial process and, if yes, the number of times it is reproduced	Not Applicable.
17. Remarks, if any	The work is a substantial, original computer program comprising approximately **318,000 lines** of source code across **1,005 files** (primarily TypeScript/TSX), organised as a pnpm + Turborepo monorepo containing five applications and three shared packages. The first ten and last ten pages of the source

	code (paginated at 55 lines per A4 page) are submitted in triplicate along with this application, in accordance with the Copyright Office practice.

STATEMENT OF FURTHER PARTICULARS

(For Literary, Dramatic, Musical and Artistic works only)

1. Is the work to be registered: **a. an original work?** **b. a translation of a work in the public domain?** **c. a translation of a work in which copyright subsists?** **d. an adaptation of a work in the public domain?** **e. an adaptation of a work in which copyright subsists?**	**(a) An original work.** The work is an original computer program independently authored. While it makes use of widely-available open-source libraries and frameworks (e.g. Node.js, Express, Next.js, React, React Native, MongoDB driver, TypeScript) as tools, none of those libraries are reproduced in or claimed as part of the present work. The original expression — including the architecture, module design, business-logic algorithms, data models, user-interface components, control flow and source-code text — is the independent creation of the author.
2. If the work is a translation or adaptation of a work in which copyright subsists: **a. Title of the original work** **b. Language of the original work** **c. Name, address and nationality of the author of the original work and if the author is deceased, the date of his decease** **d. Name, address and nationality of the publisher, if any, of the original work** **e. Particulars of the authorisation for a translation or adaptation including the name, address and nationality of the party authorising**	Not Applicable — the work is an original work and is not a translation or adaptation of any other work.

ANNEXURE A

Technical Description of the Work

1. Overview

Campus Verse is a multi-tenant, cloud-based Enterprise Resource Planning (ERP) software platform designed for educational institutions including schools, colleges and universities. It is delivered as an integrated suite comprising a backend REST API, three web applications and two cross-platform mobile applications, sharing common type definitions and business logic through internal libraries.

2. Architecture

The work is organised as a **pnpm + Turborepo monorepo** containing:

- **apps/api** — Backend REST API built on Node.js and Express.js, with MongoDB and Redis as primary data stores.
- **apps/web** — Institution administrator and staff web portal, built on Next.js 15 (React, App Router).
- **apps/superadmin-web** — Super-administrator and marketing/leads portal, built on Next.js 15.
- **apps/mobile-student** — Cross-platform (iOS & Android) mobile application for students, built on React Native (Expo).
- **apps/mobile-staff** — Cross-platform mobile application for teaching and administrative staff, built on React Native (Expo).
- **packages/shared** — Shared TypeScript types, Zod validation schemas, constants and utility functions consumed by the API and web applications.
- **packages/mobile-shared** — Shared modules for the two mobile applications.
- **packages/eslint-config** — Shared linting configuration.

3. Functional Modules

The platform implements the following original functional modules, each comprising its own data models, business-logic services, controllers and user-interface components:

- **Authentication & Authorisation** — JWT-based sessions with token refresh; role-based access control (RBAC) with granular per-module/per-action permissions; tenant- and branch-scoped access control.
- **Organisation & Onboarding** — Multi-tenant organisation setup, branch management, feature-gating based on subscription.
- **Admissions Pipeline** — A unified 10-stage Kanban pipeline covering Lead capture (new → contacted → interested → followup → visit_scheduled → visited) and Application processing (applied → docs_verified → fee_paid → enrolled), with bidirectional sync between leads and applications.
- **Student Lifecycle** — Enrolment, profile, classes, sections, promotion across academic years.
- **Attendance** — Daily and period-wise attendance tracking with multiple statuses.
- **Finance** — Fees, receipts (auto-generated receipt numbers), transactions, integration with Razorpay payment gateway.

- **Human Resources** — Staff records, employee IDs, leave management.
- **Teaching Suite** — Timetable slots and entries, lesson plans, assignments, gradebook, "My Classes" and "My Students" views for teachers.
- **Examinations** — Exam schedules, marks entry, hall tickets, report card generation, promotion engine.
- **Live Classes** — Admin-scheduled live online classes for sections.
- **Transport** — Bus routes with Google Maps integration, stops, flat or per-stop pricing, student enrolments.
- **Communications** — SMS, email (Resend), in-app notifications.
- **Certificates** — Certificate generation and issuance.
- **Dashboards** — Role-based dashboards (Owner / Branch Admin / Staff).
- **Super-Admin Portal** — Tenant provisioning, marketing leads Kanban, module/feature management.

4. Technical Characteristics

Total source files	1,005 (TypeScript / TSX / JavaScript / JSX)
Total source lines	Approximately 318,000
Total pages (A4, 55 lines per page)	5,785
Primary programming language	TypeScript
Secondary languages	JavaScript, HTML, CSS, YAML, JSON, Shell
Runtime	Node.js 20+
Database	MongoDB (native driver, multi-tenant data isolation via tenantId)
Cache / sessions	Redis
Web framework	Next.js 15 (React Server Components, App Router)
Mobile framework	React Native (Expo SDK)
Monorepo tooling	pnpm workspaces, Turborepo
Deployment	Vercel (web) + Digital Ocean Droplet running Docker Compose (API, MongoDB, Redis, Nginx with SSL)
Complete source on sealed media	Enclosed as **Annexure C** — `campus-verse-full-source.zip` (6.2 MB)

SHA-256 hash of the archive	`8efcc3744e6692de20e3e06150a86aa93e0e51b7d45406449df28b1a1e52706d`

5. Originality

The architecture, module organisation, data schemas, business-logic algorithms, user-interface design and source-code text are original to the author and have not been copied from any third-party source. The work makes use of widely-available open-source libraries and frameworks (each used under its respective permissive licence — MIT, Apache 2.0 and similar) as tools to express the work, but no third-party code is reproduced as part of, or claimed as, the work being registered.

6. Submitted Source Code

In accordance with the practice of the Copyright Office for computer programs, the **first ten (10) pages** and the **last ten (10) pages** of the source code (paginated at 55 lines per A4 page, in deterministic file order beginning with the shared type definitions and proceeding through the backend, web applications and mobile applications) are submitted in triplicate as enclosure to this application. Each page bears the author's signature.

Because the present work is a substantial computer program in excess of 5,000 pages, the **complete source code** is additionally enclosed as **Annexure C** on sealed media (USB drive / DVD-R) in a single ZIP archive named `campus-verse-full-source.zip`. A separate **Affidavit** at **Annexure D** attests to the integrity of the media and records the SHA-256 hash of the archive for tamper-evidence.

NO OBJECTION CERTIFICATE

(From the Author, in favour of the Applicant)

I, [AUTHOR FULL NAME], son of [FATHER'S NAME], aged [AGE] years, residing at [RESIDENTIAL ADDRESS], do hereby state and declare as under:

1. That I am the sole author of the original literary work (computer software) titled **"Campus Verse — Multi-Tenant ERP Platform for Educational Institutions"**, which is the subject matter of the present application for registration of copyright.
2. That I created the said work in the course of my employment / engagement with [COMPANY FULL LEGAL NAME], having its registered office at [COMPANY ADDRESS], under a contract of service. Accordingly, by operation of Section 17(c) of the Copyright Act, 1957, the first owner of the copyright in the said work is [COMPANY NAME].
3. That I have **no objection** to the registration of the copyright in the said work in the name of [COMPANY NAME], and I confirm that I do not claim any rights in the said work adverse to or in derogation of the rights of the said company.
4. That all moral rights of the author under Section 57 of the Copyright Act, 1957, shall continue to vest in me.

Signed on this [__] day of [_____], 20[__].

Signature of the Author	Witness
Name: [AUTHOR FULL NAME]	Name: _____
Place: _____	Address: _____

This No Objection Certificate is required because the author (a natural person) and the applicant (a juristic person — company) are different entities. Where the author and the applicant are the same person, this certificate is not required and may be omitted.

FILING CHECKLIST

1. Form XIV (Statement of Particulars)	3 copies — signed on every page by the applicant.
2. Statement of Further Particulars	3 copies — signed.
3. Source code extract (first 10 + last 10 pages)	3 sets — author to sign each page in each set. See `source-bundle.html` (print to PDF, then print 3 copies).
4. No Objection Certificate (NOC) from author	Only required if author and applicant are different persons. Sign on non-judicial stamp paper (Rs. 100) or as plain affidavit per Copyright Office practice.
5. Power of Attorney / Authorisation Letter	From the company in favour of the authorised signatory who is signing Form XIV on its behalf.
6. Demand Draft / online challan for filing fee	Rs. 5,000 per work for computer software (subject to current Schedule II rates). Pay via the e-filing portal at **copyright.gov.in** or by DD in favour of "Registrar of Copyrights, New Delhi".
7. Identity proof of authorised signatory	Self-attested copy (PAN / Aadhaar).
8. Certificate of Incorporation of applicant company	Self-attested copy.

Filing modes: (i) Online at **https://copyright.gov.in** (preferred — single set of soft copies suffices, with fee paid via integrated payment gateway), or (ii) by post to: *Registrar of Copyrights, Copyright Office, 4th Floor, Jeevan Deep Building, Parliament Street, New Delhi — 110001*, in triplicate.
